

Genee Vision 4100HD

With Genee Visualisers you can make a strong impact on your audience, adding visual content to enhance your presentation by showing your content on a larger scale - in fine detail.

Utilise the GV 4100HD's features to compare work, analyse content and show objects in greater detail. The zoom enlarges source materials, pictures and 3D objects without having to force your audience to move for a better view.

A key use for Visualisers is to bring student work into lessons for peer led assessment, show and tell and discussion through collaboration.

Genee's Visualisers integrate seamlessly with our SPARK II lesson software, enabling teachers to demonstrate and interact with students in real-time; which allows teachers to create lessons that are infinitely more engaging. Alternatively, connect your visualiser to a PC and use Genee Toolbar software to annotate, take stills, zoom and more.

Setting up your Genee Visualiser couldn't be simpler; plug into a power source, connect the USB cable to your computer/screen, launch the software and you're ready to start your presentation.

Key Features & Benefits

- 

Rotation
Head rotates freely - the 4100HD has a gooseneck so you can visualise all areas of an object to our touchscreen.
- 

Focus
The Genee Vision 4100HD has both auto and manual focus to give you full control.
- 

Simple Connectivity
Setting up your Genee Visualiser couldn't be simpler; plug into a power source and connect the USB cable.
- 

Seamless Integration
A Genee visualiser seamlessly integrates with your touchscreen or video conferencing system.
- 

Zoom
The Genee Vision 4100HD has a 5x optical zoom and 10x digital zoom for seeing the finer details.
- 

Peer to Peer Review
Using the Genee 4100HD visualiser enables you to assess and review work in front of the whole class.

GV4100HD	
Product Code	VSR050010
CAMERA	
Pixels	5MP
Camera Rotation	Free (Gooseneck)
Optical Zoom	5x
Digital Zoom	10x
Focus	Auto / Manual
FEATURES	
Negative / Positive	Yes
