

G-Touch Deluxe Range

The G-Touch Deluxe Range is one of Genee's most popular touchscreens and has Android included. With 10-point touch technology, Spark II and Project Flow software the G-Touch Range provide users with an array of collaborative teaching opportunities. It is ideal for use in a Primary or Secondary School.

Both presenter and participant can interact and create dynamic presentations, perfect for facilitating group activities and fostering presentation skills. Teachers can present and deliver stunning crystal clear information from the touch screen. Connect devices either wired or wireless, use the built in annotation tools to annotate and capture content.

Crystal clear audio via the front facing speakers is ideal for video presentations. Adding a Genee Vision Visualiser allows live video to be displayed, helping to reduce the need to photocopy documents and provides detailed closeups of learning resources using the enhanced video functions.

Integrate your presentation further by incorporating ClassComm technology and capture all your audiences responses in real-time.

G-Touch Deluxe is available in 55", 65", 70" & 80".

Key Features & Benefits

Spark II Software

The ultimate boardroom presentation software designed for ease of use is free with our Genee G-Touch screens.

Project Flow Software

Encourages collaboration and enables the presenter to gain live instant feedback during a presentation. One year licence included.

Front Facing Speakers

The speakers are front facing to maximise the output of sound projected.

Connection & Bezels

Easily accessible connection ports and 4 section bezels to enable in situ repairs without having to return to base.

Built-In Android/ Optional Upgradeable Built-In PC

Utilising the Built-In Android and Wi-Fi provides the user with a comprehensive array of built in Apps with further App downloads available from Genee App Store.

Multi-Touch

With multi-touch technology several users are able to work and collaborate on the screen at once.

Anti-Glare

Our Deluxe screen is anti-glare enabling it be viewed in any environment regardless of the weather!
