

Go Bespoke with Genee Registrar

Using Genee's hardware and software expertise we can create bespoke solutions, creating the ideal Registrar for your school or business.

Each project is costed on the basis of the full requirements of what is required, utilising the best technologies most suitable for each project. Please see reverse for details.

Genee have experience in a range of projects including:

Bespoke Process

Each Registrar project is costed on an individual basis to ensure that the best solution is provided for the end user. This creates a large number of variable factors, therefore cannot be costed under one bracket.

Please see the table below for an overview of the process and any cost implications at each stage, giving you an idea of how you will be guided through a bespoke project.

PROCESS STAGE	DESCRIPTION	COST
Initial Consultation	We offer a free first consultation for any bespoke project to scope the best solution for the end user.	£0.00
Extended Consultations	Any further consultations may require a non-refundable deposit to be made.	£250.00
Project Approval	If the project is approved the extended consultation deposit will be deducted from the cost of the final order.	Variable
