

## The Complete Visitor Solution

## Genee Registrar

Security and accountability are imperative within Corporate environments, Genee World's Registrar Visitor Management System provides a simple to use sign-in solution with Photo Capture, Barcode Scanning and Visitor Label Printing. Allowing visitors and staff to easily sign in and out of a premises.

Genee Registrar significantly reduces data entry and administration tasks typical of receptions with multiple signing in books. Stored data, reporting and fire evacuation procedures are supported by Registrars features with cloud data available for signing in / out and fire evacuation.

A standard Genee Registrar bundle includes 21.5" touchscreen with a high resolution webcam, thermal label printer, 8gb,back-up, wall or desk mount option. Please turn overleaf to see the detailed breakdown of the features above and what is included with a standard Genee Registrar solution.

We do offer bespoke options for the Registrar however the process and development behind a bespoke system is chargeable. Please ask your account manager for further details.

## Key Features & Benefits

Please see our Registrar overview sheet for full details on each feature.

- 

**Sign Visitors & Staff In & Out**  
Allow both staff and visitors to sign in / out. The data input will be variable on whether the person is staff or visitor.
- 

**Customisation**  
Change backgrounds, policies, logos & organisation names to brand the Registrar to your company.
- 

**Evacuation Mode**  
Remotely trigger lock-down of registrar units. The Cloud app shows individuals registered via Registrar.
- 

**Multiple Site / Point of Entry**  
Centrally manage multiple Registrar units with one master and multiple slave units.
- 

**Remote Support**  
Remote technical assistance is available to internet connected Registrar devices.
- 

**Meetings**  
Arrange meetings through Registrar, manage attendees and add custom notification for attendees upon sign in.
